Objective:

Detail-oriented and dedicated Data Analyst with a strong commitment to immigrant's rights and social justice. Proficient in data management, analysis, and reporting, utilizing tools such as SQL and Python. Eager to contribute my skills to Vera Institute of Justice's Center on Immigration and Justice initiatives.

Education:

Bachelor of Science in Data Science

XYZ University

New York, NY

Graduated: May 2020

Experience:

Data Analyst Intern

ABC Analytics

New York, NY

June 2019 - August 2019

- Collaborated with data science team to clean, merge, and recode large datasets for analysis.
- Assisted in preparing summary statistics and performance indicators to evaluate project outcomes.
- Utilized SQL to write queries for data extraction and manipulation.
- Developed Python scripts to automate data processing tasks, improving efficiency by 20%.
- Supported the creation of interactive dashboards using data visualization tools.
- Participated in team meetings to prioritize project needs and discuss data-related challenges.

Skills:

- Data Management: Cleaning, merging, and recoding datasets for analysis.
- Data Analysis: Generating summary statistics and performance indicators.
- Programming Languages: SQL, Python (proficient in writing queries and scripts).
- Data Visualization: Creating interactive dashboards for reporting insights.
- Problem-Solving: Identifying anomalies and addressing data quality issues.
- Team Collaboration: Working effectively in cross-functional teams.
- Time Management: Handling multiple projects and tasks simultaneously.

Projects:

- Analyzed customer behavior data to identify trends and provide insights for marketing strategy.
- Created a sales forecasting model using historical data to optimize inventory management.

Certifications:

- Data Analysis with SQL (Coursera)
- Data Visualization with Python (Udemy)

Languages:

- English: Native Proficiency

Volunteer Work:

- Volunteered at [Local Immigrant Support Organization] to assist with legal clinics.
